Dear Majority Leader McConnell, Minority Leader Schumer, Speaker Ryan, and Minority Leader Pelosi:

As bipartisan, governor-appointed state and territorial service commissioners, we are joining together to offer this letter to demonstrate our deep commitment to service in the communities that you represent. We write to ask you to protect and sustain funding for the Corporation for National and Community Service (CNCS) and its programs, AmeriCorps and Senior Corps.

For decades, national and community service has proven to be a cost-effective investment that helps create jobs, solve local problems, and strengthen communities. AmeriCorps members and Senior Corps participants mentor struggling students, provide job training, support veterans and military families, and coordinate relief and recovery efforts in areas affected by natural disasters and much more.

As state service commissioners, we determine the needs of our states, set policy and program priorities for AmeriCorps programs, and provide governors with unique resources and solutions to meet individual state and local needs. We are responsible for administering more than \$300 million in AmeriCorps funding annually to address critical community needs in our states and throughout the nation. In total, seventy-eight percent of AmeriCorps funding is provided through our state service commissions.

We have witnessed firsthand the tens of thousands of people who are working together to provide critical services to communities in need across the country. This willingness of our citizens to come together through service and address the compelling challenges facing our nation, is inherently American.

Please prioritize service to our country by fully funding AmeriCorps, Senior Corps, state service commissions, and all the programs of CNCS in the FY 2018 appropriations legislation.

Thank you for your continued service to America.

Sincerely,

*The following State Service Commissioners:*
